Sir,

As Member of the Block Advisory Committee of Payyannur Block, I have to bring the following few lines to your kind notice in regard to the extension of electric energy in rural areas this side, and hope you will bestow your serious consideration to the facts stated herein and do the needful in the matter as early as possible.

As President of the Madai Grama Sangham, I have moved the authorities as far back as 21-11-1948 for extension of electric energy to Payangadi which is the Headquarters of Madai Firka and a growing town and in Letter No. 5460/48-2 dated 25th January 1949 of the Addl. Deputy Secretar to the Govt. of Madras, Public Works Department, I was informed that the load possiblities of Payangadi village will be taken up for investigation along with the other schemes for extension of supply of electricity in Malabar area. Since then electricity has been extended to various villages in Malabar, but nothing has been done in regard to Payangadi as yet. I again made a representation to the Hon'ble Minister for Public Works in this regard on 3-4-54 and a reply was given to me by the Asst. Secretary to Govt., Public Works Department, Ref.No.30239 E/54. dated 12th April 54, in which I was informed that a scheme for extension of supply from Cannanore to certain villages is under the consideration of the Government and that the work will be executed at once out of their turn in the priority list.

Since extension of electric energy has become a part and parcel of rural development and falls within your jurisdiction, I had addressed a letter to you in this connection on 19-2-55 which had no reply and therefore I had reminded you on 11-6-55 to which also I regret to state that there has been no reply. I had received at leas replies to my letters addressed to the Public Works ministry, but it is really painful that my letters addresse to your ministry remain unanswered. Hence this is another reminder and I hope you will be kind enough to go through the facts detailed

Ledger No. ★5103/2/55
17 655 Lm Press

herein and pass early favourable orders.

I am sure you will admit that it is an indisputable fact that electricity plays an important role in the development scheme and it is absolutely necessary to have electric energy in rural parts in areas included under the National Extension Scheme for the progress and fulfilment of the scheme. In order that the scheme be a succes the first thing that the authorities should do is to extend electric energy in rural parts, so as to enable th people consume electreicity for the operation of pumping sets for irrigation purposes, manning small cottage indus ries etc.

You will find from previous correspondence received by me the Government had promised to extend electric ener in these parts, but I am unable to understand the reason for the delay. Though extension has been carried out to many villages in South Malabar, our case has not been con sidered yet, though investigation by various officials wa made from time to time, without any finalisation of the scheme. I am at a loss to know why we in this area have been neglected by the authorities and I presume that because we happen to be in North Malabar, this protracted delay has taken place in including this area under the scheme for the extension of electricity. It may be mentioned here that the District Rural Welfare Committee als has recommended for the extension of electricity to this part. The Government of India, I understand, had also made an investigation in this matter and they too have recommended for an early extension of electric energy to this area.

In this connection I wish to point out that if people are enabled to get electric energy a number of industrial enterprise will spring up in this area which would go a long way to eradicate unemployment and consequent poverty among the masses and there will be a greater production of essentials of lives, especially food. With the advent of electric energy there will be alround progress and prosperity in this part. Payangadi is an important and growing business place. There are many governmental institutions here such as two Fish Curing Yards, Post & Telegraph Office, Rent Court, & Police Statio besides a High School.

I therefore request you to take early steps to exten electricity to these parts and request you for kind reply. Thanking you,

Yours faithfully,

MEMBER BLOCK ADVISORY COMMITTEE

.....

Sir,

Sub: Electricity - Pykara Electricity System - Extension to Palayangodi in North Malabar - Feasibility of supply.

Ref: Government Memorandum No.2401.X.E/55-4. dated 5-3-1956.

The extension of power to Palayangadi has been included in the major ten year scheme for supply to Payyanur-Talliparamba etc. villa in North Malabar District. The scheme is under scrutiny and it will be forwarded to Government for sanction shortly. Meanwhile a workin estimate is being finalised by the field officer for the 38 K.V. extension from Cannanore to Palayangadi.

2. I may also state in this connection that the electricity to the area may be available by about 1957-58.

.....

The file relates to the request of one Sri Abdurahman Abdulla Sait, Palayangadi, North Malabar for extension of supply of electricity t Palayangadi village.

2. With reference to his letter dated 3.4.5 Sri Abdurahman was informed that it was not cor to assume that interests of North Malabar was ne ted in the matter of electrification of villages and that a scheme for extension of supply of pow from Cannanore to Badagara and Quilandy in North Malabar was under consideration and that after i vas sanctioned and executed it would be possible consider the feasibility of extending supply of to villages in North Malabar. Sri Abdurahman ha now emphasised in ~~great~~ greater detail the need for ext ing ~~of~~ supply of electricity to Palayangadi earl agricultural and industrial purposes, and has re ted that early steps may be taken in that regard.

2. The C.O.E.(S), who was consulted in the matter, has stated that extension of power to Palayangadi has been included in the major ten ye

scheme for supply to Payyanur-Taliparamba etc. villages in North Malabar District which is under scrutiny and will be forwarded to Govt. ~~for~~ shortly. He has also stated that in the meanwhile a working estimate is being finalised by the field ~~officer~~ officers for the 33 K.V. extension from Cannanore to Palayangadi and that electricity to ~~Payyanur~~ the area may be available by about 1957-58.

3. Sri Abduraham Abdulla Sait may be informed of the above position. Draft letter is submitted for approval. The file may be circulated to M(W) and M(A).
